I like harmony and rhythm...
discovering interesting shapes
in Mother Nature ...

Annie Hayward

Here and There Exhibition showcases the latest collection of works by talented artist Annie Hayward. Even though Annie moved to the Wairarapa, she still has a very strong connection to the communities in Eastbourne and Bays.

Annie's ultimate intention for this exhibition is to express her love of landscapes. Annie comments "... here in Eastbourne with its dramatic harbour views is where I grew up and spent most of my adult life, however since moving to the Wairarapa I have developed a new appreciation for the landscape and it has become really captivating.

The seasons seem to be more apparent in the Wairarapa and the light creates fabulous drama in the morning and afternoon. I'm never stuck for inspiration. Everywhere I look it is begging to be painted. It's like a visual diary.

There are no profound messages here, but I hope these paintings bring a sense of calmness and joy. I also hope the artworks convey enough emotion through my painting them, that the viewer will appreciate how beautiful our countryside is whether we are by the sea, bush, or the countryside. "

Annie Hayward with husband James
